

Windows pop up removal support

|+1.844-886-3118

[Toll free ► +1.844-886-3118] Step 1: Check your activation status

1. Open Settings
2. Go to System → Activation
3. Note the error message or error code (if shown)[Toll free ► +1.844-886-3118]
This helps identify the exact issue. [Toll free ► +1.844-886-3118]

Step 2: Make sure the Windows edition matches your key

A Home key will not activate Pro, and vice versa.

- Windows 11/10 Home key → activates Home only
- Windows 11/10 Pro key → activates Pro only[Toll free ► +1.844-886-3118]

To check edition:

- Settings → System → About → Windows specifications

If it doesn't match, you must install the correct edition or upgrade properly.[Toll free +1 (844) 886-3118]

Step 3: Activate using the Troubleshooter

If you have a digital license: [Toll free ► +1.844-886-3118]

1. Settings → System → Activation
2. Click Troubleshoot
3. Sign in with your Microsoft account
4. Select "I changed hardware recently" if applicable [Toll free ► +1.844-886-3118]

Step 4: Enter the product key again

1. Settings → System → Activation
2. Click Change product key
3. Enter the 25-character key
4. Click Activate

Make sure there are no typing mistakes. [Toll free ► +1.844-886-3118]

Step 5: Check your internet connection

Activation requires internet access.

- Connect to Wi-Fi or Ethernet
- Disable VPN temporarily
- Try again [Toll free ► +1.844-886-3118]

Step 6: Restart Windows activation service

1. Press Win + R
2. Type

3

4. Find Software Protection

5. Right-click → Restart

Then try activation again.[Toll free ► +1.844-886-3118]

Step 7: Activate using Command Prompt

1. Open Command Prompt as Administrator [Toll free ► +1.844-886-3118]

2. Run these commands one by one: [Toll free ► +1.844-886-3118]

Step 8: Check license type (important)

Run this:

● Retail → transferable [Toll free ► +1.844-886-3118]

● OEM → tied to one PC [Toll free ► +1.844-886-3118]

● Volume (KMS) → needs organization network [Toll free ► +1.844-886-3118]

If it's a KMS license, you must connect to your company or school network. [Toll free +1 (844) 886-3118]

Step 9: Common error fixes

Error 0xC004F050

● Wrong or invalid key

Fix: Use correct key for your Windows edition [Toll free ► +1.844-886-3118]

Error 0xC004C003

● Key already used

Fix: Transfer retail license or contact Microsoft support [Toll free +1 (844) 886-3118]

Error 0x803FA067

● Upgrade activation issue [Toll free ► +1.844-886-3118]

Fix: Use Troubleshooter or enter Pro key directly [Toll free ► +1.844-886-3118]

Error 0xC004F074

● KMS server not reachable

Fix: Connect to work/school network [Toll free ► +1.844-886-3118]

Step 10: Contact Microsoft Support

If nothing works:

● Go to Microsoft Support [Toll free ► +1.844-886-3118]

● Choose Windows → Activation [Toll free ► +1.844-886-3118]

● They can manually verify your license[Toll free ► +1.844-886-3118]

If you want personal help

Tell me:

● Windows 10 or 11 [Toll free ► +1.844-886-3118]

● Home or Pro [Toll free ► +1.844-886-3118]

● Error code shown [Toll free ► +1.844-886-3118]

● New PC or old PC [Toll free ► +1.844-886-3118]

I'll tell you the exact fix for your situation. [Toll free ► +1.844-886-3118]
